# **Your Road to Innovation**

**Guided by Expert Teacher Training**

# Welcome to All Prints

Since 1968, we've been devoted to nurturing generations by continuously advancing and innovating education. Through decades of experience and a steady flow of forward-thinking ideas, we've shaped a legacy that continues to guide and elevate the world of learning.

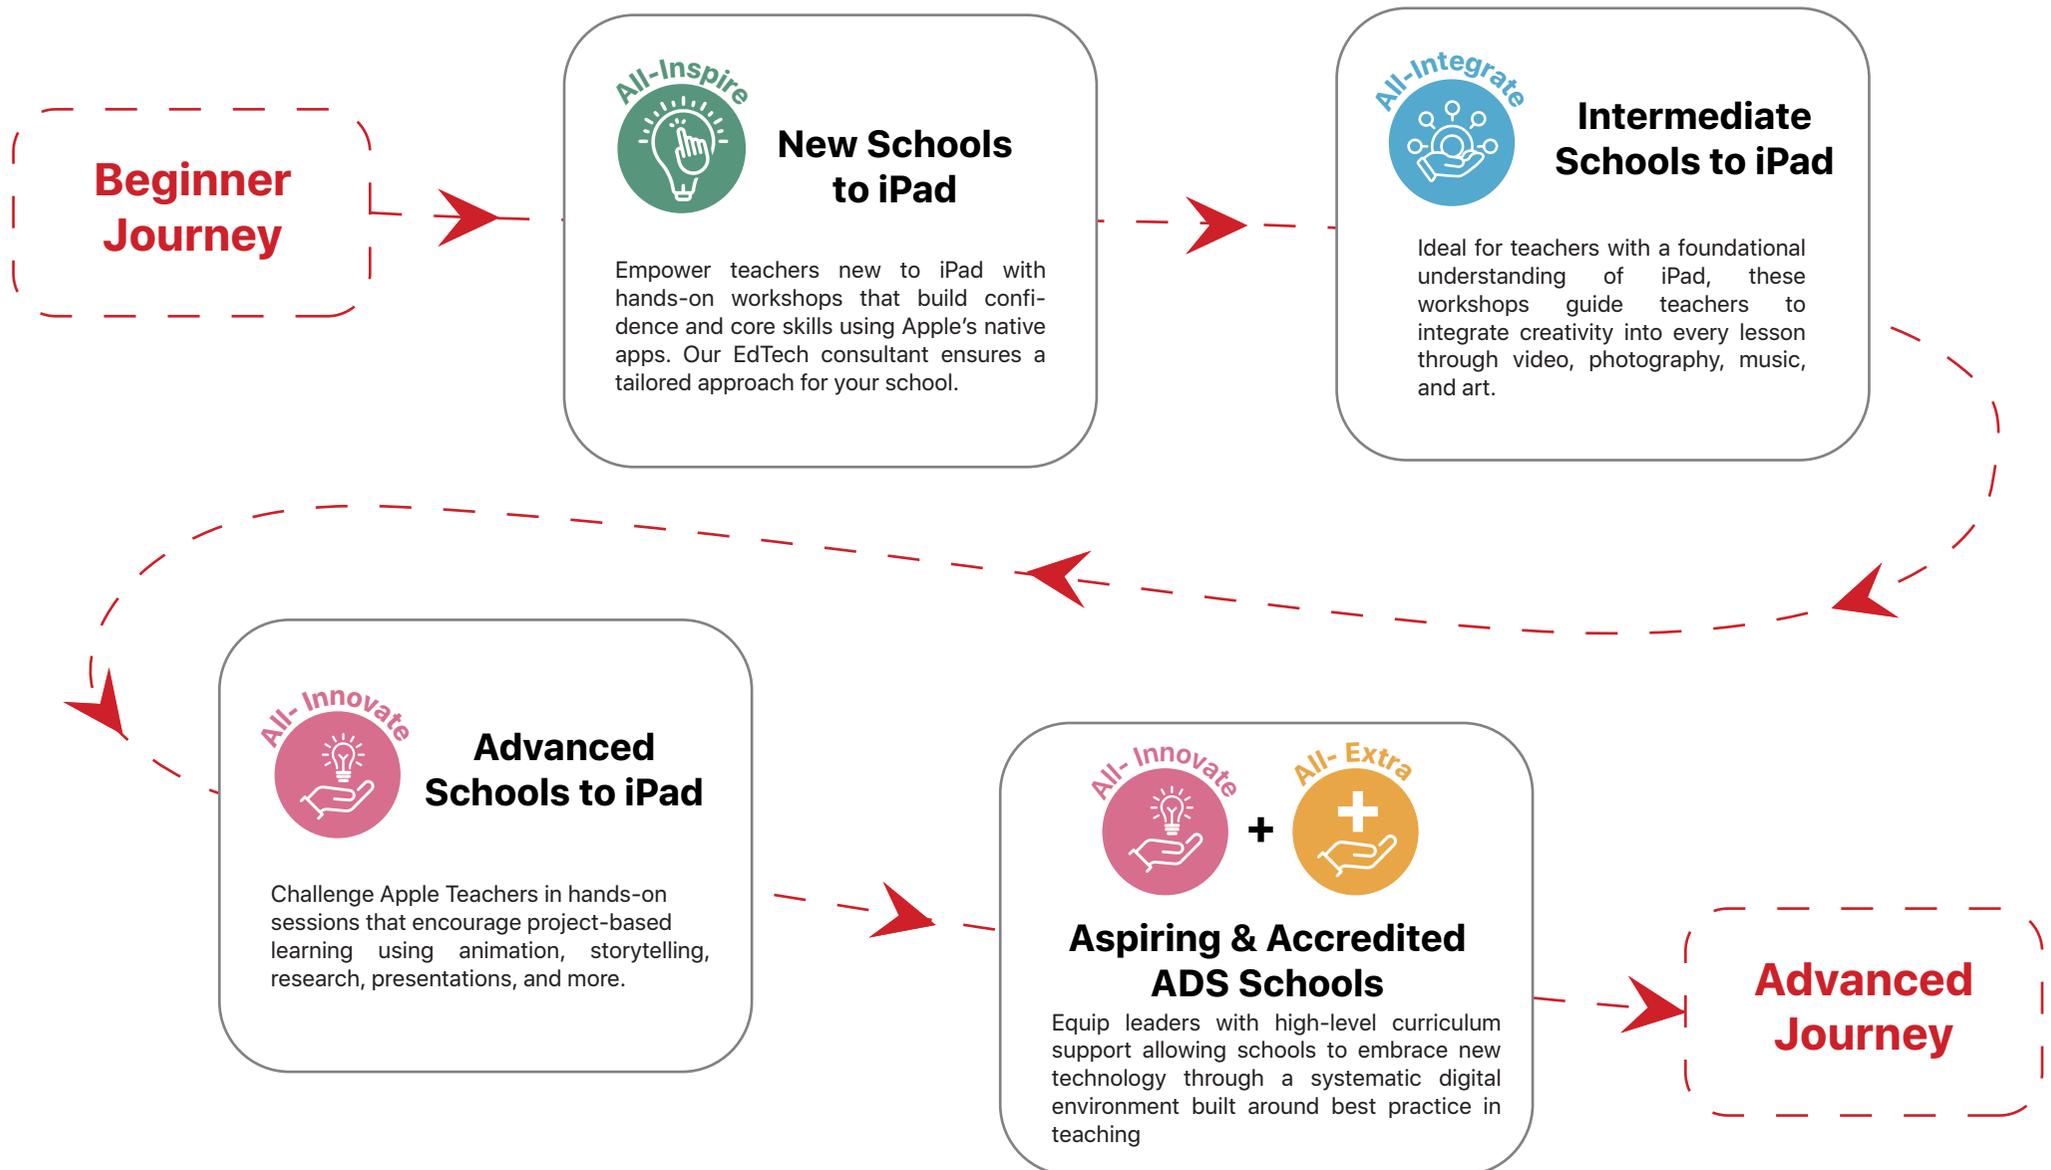

Our partnerships ensure that we offer the highest level of support to educators and learners, united by a shared commitment to meaningful progress. At the heart of everything we do is a drive to overcome the obstacles that hold learning back, pushing forward with innovation and creating environments that spark curiosity and leave lasting impact.

Together, we're committed to creating impactful learning experiences and shaping the future of education with purpose and vision.

We Lead. We Innovate. We Inspire.

# Start Your Digital Journey

# Apple Professional Learning Pathways

Empower teachers new to iPad with hands-on workshops that build confidence and core skills using Apple's native apps. Our EdTech consultant ensures a tailored approach for your school.

**New Schools to iPad** ▶

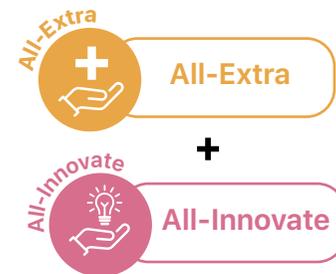

Ideal for teachers with a foundational understanding of iPad, these workshops guide teachers to integrate creativity into every lesson through video, photography, music, and art.

**Intermediate Schools to iPad** ▶

Challenge Apple Teachers in hands-on sessions that encourage project-based learning using animation, storytelling, research, presentations, and more.

**Advanced Schools to iPad** ▶

Equip leaders with high-level curriculum support allowing schools to embrace new technology through a systematic digital environment built around best practice in teaching

**Aspiring & Accredited ADS Schools** ▶

# New Schools to iPad

Empower teachers. Elevate learning. This hands-on iPad workshop series builds confidence, readiness, and authentic Apple integration - the first step toward Apple Teacher certification.

## Sessions included in this program:

### Apple Teacher Essentials:

Hands on introduction to iPad and tools that enhance teaching and learning.

### Freedom with Freeform:

Plan lessons, visualize ideas, and collaborate in real time on your iPad.

### Present with Pages:

Create interactive eBooks, newsletters, and digital content for publishing and collaboration.

### Classroom Control:

Manage devices, monitor student progress, and support differentiation with Apple Classroom.

### Access for Everyone:

Personalize learning with accessibility tools like VoiceOver, Speak Screen, and AssistiveTouch.

### Content Create in Clips:

Make engaging videos with text, music, and effects for reports and presentations.

### Logic in Numbers:

Track progress and analyze data with interactive spreadsheets, charts, and graphs.

### Lights, Camera, iMovie:

Inspire storytelling with filmmaking tools like Magic Movie and Storyboards.

### Jam with GarageBand:

Compose songs, create podcasts, and produce original sound projects.

### iCan with iPad:

Explore built-in apps and features to boost creativity, productivity, and create an inclusive classroom.

### Present with Keynote:

Design informative and stunning presentations, animations, animated gifs and interactive experiences.

# Intermediate Schools to iPad

Inspire creativity. Transform learning. This hands-on workshop series brings Apple's Everyone Can Create curriculum to life - empowering teachers to spark imagination through storytelling, video, music, and art.

## Sessions included in this program:

### Activate Your Learning with iPad:

Spark curiosity and boost engagement with creative warm-ups.

### Apply Your Learning with iPad:

Assess learning through creative projects showing mastery and real-world application.

### Teach with Videos:

Bring storytelling to life in learning by using iPad and Apple's Everyone Can Create curriculum to help learners express themselves through simple, creative video projects that build confidence, imagination and communication skills.

### Teach with Photos:

Empower learners to observe, create and tell stories through photography as you explore how to capture, edit and integrate visual expression into the classroom using iPad and Apple's Everyone Can Create curriculum.

### Explore Your Learning with iPad:

Connect ideas, explore new concepts, and deepen understanding.

### Teach with Coding:

Introduce Swift Playgrounds to develop problem-solving, creativity, and critical thinking through fun, interactive activities.

### Teach with Music:

Bring music to life in learning by using iPad and Apple's Everyone Can Create curriculum to help learners explore rhythm, melody and voice while building creativity, coordination and a love for sound through hands-on music making.

### Teach with Drawings:

Inspire creativity and build foundational skills in learners by using iPad and Apple's Everyone Can Create curriculum to integrate drawing into your lessons through engaging activities that spark imagination, storytelling and artistic expression

# Advanced Schools to iPad

Advance skills. Inspire innovation. This hands-on iPad workshop series helps Apple Teachers transform lessons through creativity, collaboration, and purposeful technology integration.

## Sessions included in this program:

### Storytelling with iPad:

Bring stories to life by creating interactive digital books using voice, sound, and original artwork for a creative, hands-on experience.

### Animate with Keynote:

Turn ideas into engaging animations using drawings, clipart, and multimedia to explain concepts and tell captivating stories.

### Prototype Apps:

Design, test, and prototype interactive app concepts with iPad and Keynote to create your own educational tools.

### Study with Sketch Notes:

Simplify complex ideas into engaging visuals using digital art and sketch-noting with Freeform, Keynote, or Notes for storytelling, science, vocabulary, and more.

### Research Made Easy:

Make research accessible for all students with Safari, voice notes, accessibility settings, and other tools that support independent, inclusive, and engaging learning.

### Markup Magic:

Bring content to life with Markup on iPad including visuals, diagrams, and annotations that enable quick feedback and interactive learning.

### Memoji Magic in the Classroom:

Boost engagement with Memojis, using avatars, visual feedback, storytelling, and fun interactive classroom activities.

# Aspiring & Accredited ADS Schools

Think big. Integrate smart. These add-on workshops unite iPads and AI to elevate your school's digital strategy, empowering teachers to design meaningful, student-driven learning experiences.

## Sessions included in this program:

### AI and iPad:

Use AI and Apple tools to streamline planning, support differentiation, and enhance creativity and collaboration.

### Digital Skills Mapping:

Embed iPad skills across your school with a strategic framework that boosts teacher growth and student engagement.

### Digital Delivery Walkthroughs:

Receive expert feedback on your school's tech use to strengthen integration and plan for growth.

### Assessment with iPad:

Design hands-on, student-centered assessments that align with curriculum outcomes and showcase learning school-wide.

### Digital Policy Support:

Create clear policies to ensure safe, efficient, and compliant use of educational technology.

### Measuring Impact:

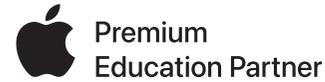

Track, evaluate, and refine teaching and learning with actionable data and insights.

### ADS Support:

Follow a four-step roadmap with guidance to achieve Apple Distinguished School accreditation.
